

## Bracelets from toilet roll tubes

### *What you need:*

- Toilet roll tubes
- Glue
- scissors
- Various craft resources, depending on how your child wants to decorate the bracelets: tissue paper, paint, glitter, sequins, coloured paper

Cut the toilet roll tube along the long edge from top to bottom. Then cut strips off for the bracelet. These can be narrow or wide, depending on how your child wants it.

Paint, decorate, glue paper, any way your child likes.

The wider the bracelet, the better it will stay on your child's wrist. You could also tie ribbons, yarn or pipe cleaners to the ends to fasten them.
