

Shaving Foam Paint

What You Need:

The Palette: A muffin tin with shaving cream squirted into each cup and mixed with a different colour or colours food colouring (very little amount otherwise could stain).

The Brush: An old basting brush from my kitchen.

How to Have Fun:

Children can paint old boxes such as food boxes (turned inside out). They could also paint pieces of paper or pieces of cardboard.

It is better if children wear aprons or old clothes ready to get messy and creative!
