

## Science - Flowers

We are going to have a close look at flowers. Hopefully it is getting warmer so we may see some flowers starting to grow. I have daffodils in my garden. Can you see the picture?

I am going to have a careful look at my daffodil. It is yellow. It has a green stem and a green leaf. I think it is pretty.

### Send us on Dojo:

Have a look at some flowers in your garden, at the park or on line. Talk to your adult about what you see. Send us a picture of your flowers and a sentence about it.

- Explore the natural world around them, making observations and drawing pictures the plants life around them.(ELG)
