

Art.

LO: To create my own reproduction of a piece of modern/contemporary art using similar techniques to the original.

RECALL

What do you remember about last week's lesson?

What one techniques are you trying to improve?

How successful were you in reproducing a section of the drawing?

What learning habits will you use to improve your sketch today?

Modern/contemporary art

Look at the three images.

- What can you see?
- Do the paintings show the past, present or future?
- What techniques can you see?
- How are they different to the art you have seen before?
- How do they make you feel?
- Which one do you like the best and why?

Geometric art by Elyse Dodge

Techniques- today you are going to practise using these when you draw. Use the internet to find out how to draw using each technique.

Graphite Shading Techniques

Hatching

Hatching

Crosshatching

Crosshatching

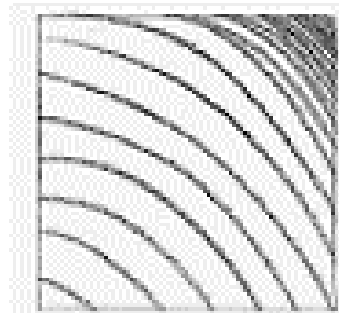

Stumping

Stumping

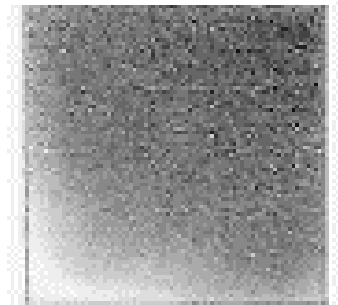

Stippling

Stippling

Contouring

Blending

Choose one of the images below.

Recreate it using hatching, crosshatching, stumping, stippling, contouring and blending. To begin with, practise the different techniques to create different parts of the image.

Remember to try more than once as you will get better with practise.

When you are happy that you can use each technique, produce your best version.
