

LO: I CAN ADD LENGTHS
(IN NON STANDARD MEASUREMENTS)

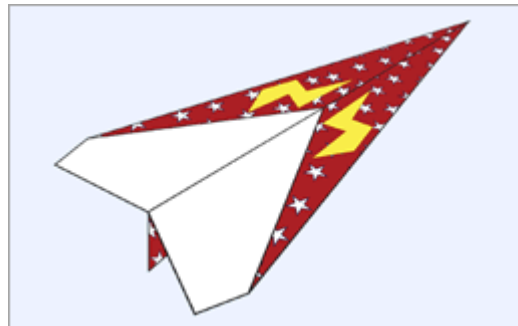

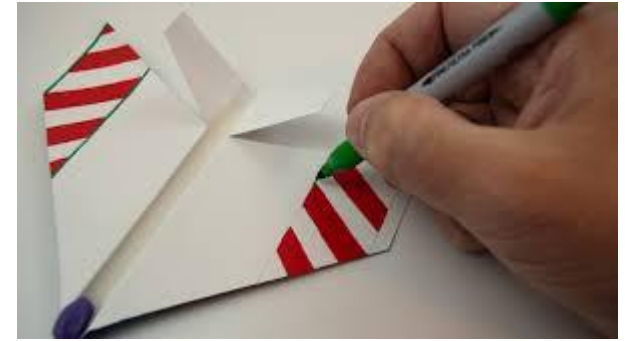

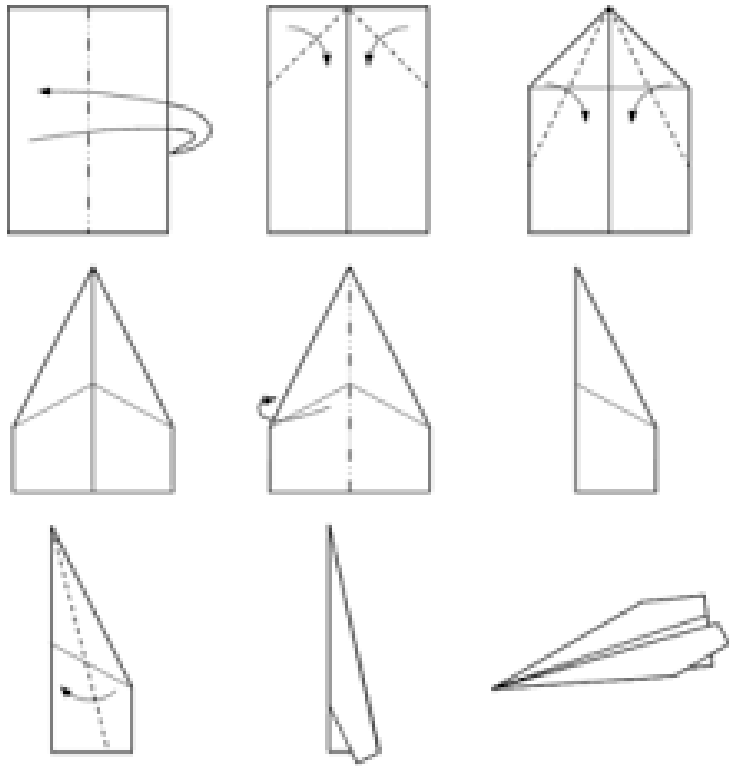

Page

LEARNING HABITS?

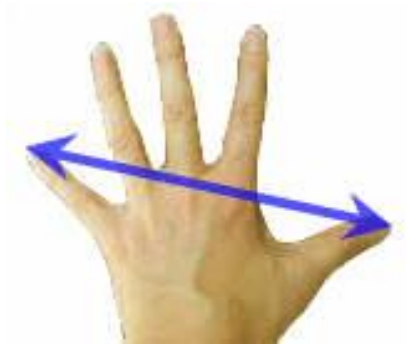

MAKE YOUR AEROPLANE

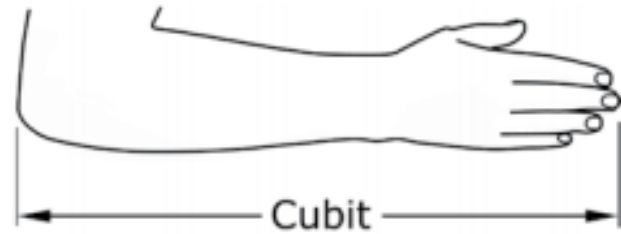

https://www.youtube.com/watch?v=veyZNyu_rlWU

WAYS THAT YOU CAN MEASURE FROM HOME

Hand span

An object from home

PRACTICAL

Throw your paper aeroplane in your garden or on the street.

Use a marker to show where it landed.

Measure the distance it travelled using your chosen measurement.

From where it landed, throw it again.

Use the marker to show where it landed.

Measure the distance it travelled using the same measurement.

What distance did your paper aeroplane travel in total?

Record and show your working out.
