

# Geography lesson 5

Revision of learning so far

Let's revisit our philosophical question:

Hopefully you will have some new ways to answer this question.

How are the layers of the Earth connected?

How is the world connected by trade?

# Pop Quiz

Which of these does not mean the same as 'connected'?

- A: split into pieces
- B: joined together
- C: linked
- D: attached

# Which of these statements explains why the Earth is similar to a peach?

- A: It is juicy and delicious
- B: It looks like it is made of one thing but actually there are layers hidden under the surface
- C: It is a cylinder
- D: It is pink and orange

Match the labels to the layers of the Earth

A

B

C

D

crust

inner core

mantle

outer core

Now match the description to the layer

layer

crust

mantle

inner core

outer core

description

The inside of the Earth, made of bubbling hot liquid called magma

The innermost part of the Earth, right in the centre

The top layer of the Earth (like the peach's skin)

About 4000km inside the Earth, surrounding the inner core

The Earth's crust is made of huge pieces that fit together like a jigsaw. They are called...

- A: spoons
- B: bowls
- C: plates
- D: dishes

# Match the statements on the left to the statements on the right

If two plates collide with each other...

If two plates move away from each other...

If two plates rub against each other...

... a ridge is formed.

... mountains and volcanoes are formed.

... an earthquake can occur.

Which of these is the best definition of 'trade'?

- A: The way that different countries solve problems
- B: The way that different countries speak different languages
- C: The way that people from different countries travel around the world
- D: The way that different countries buy from and sell to each other

Which of the following things do countries trade with each other?

- A: food (like fruit, vegetables and meat)
- B: building materials (like bricks, steel and wood)
- C: electronic goods (like computers, TVs and phones)
- D: toys

- \_\_\_\_\_ are goods and services brought in from another country.
- \_\_\_\_\_ are goods and services sent out to other countries.

A green highway sign with the word "Answers" written on it in white, mounted on a metal structure against a blue sky background.

Answers

Which of these does not mean the same as 'connected'?

•A: split into pieces

This means the opposite of connected.

•B: joined together

•C: linked

•D: attached

These are all synonyms for 'connected'.

# Which of these statements explains why the Earth is similar to a peach?

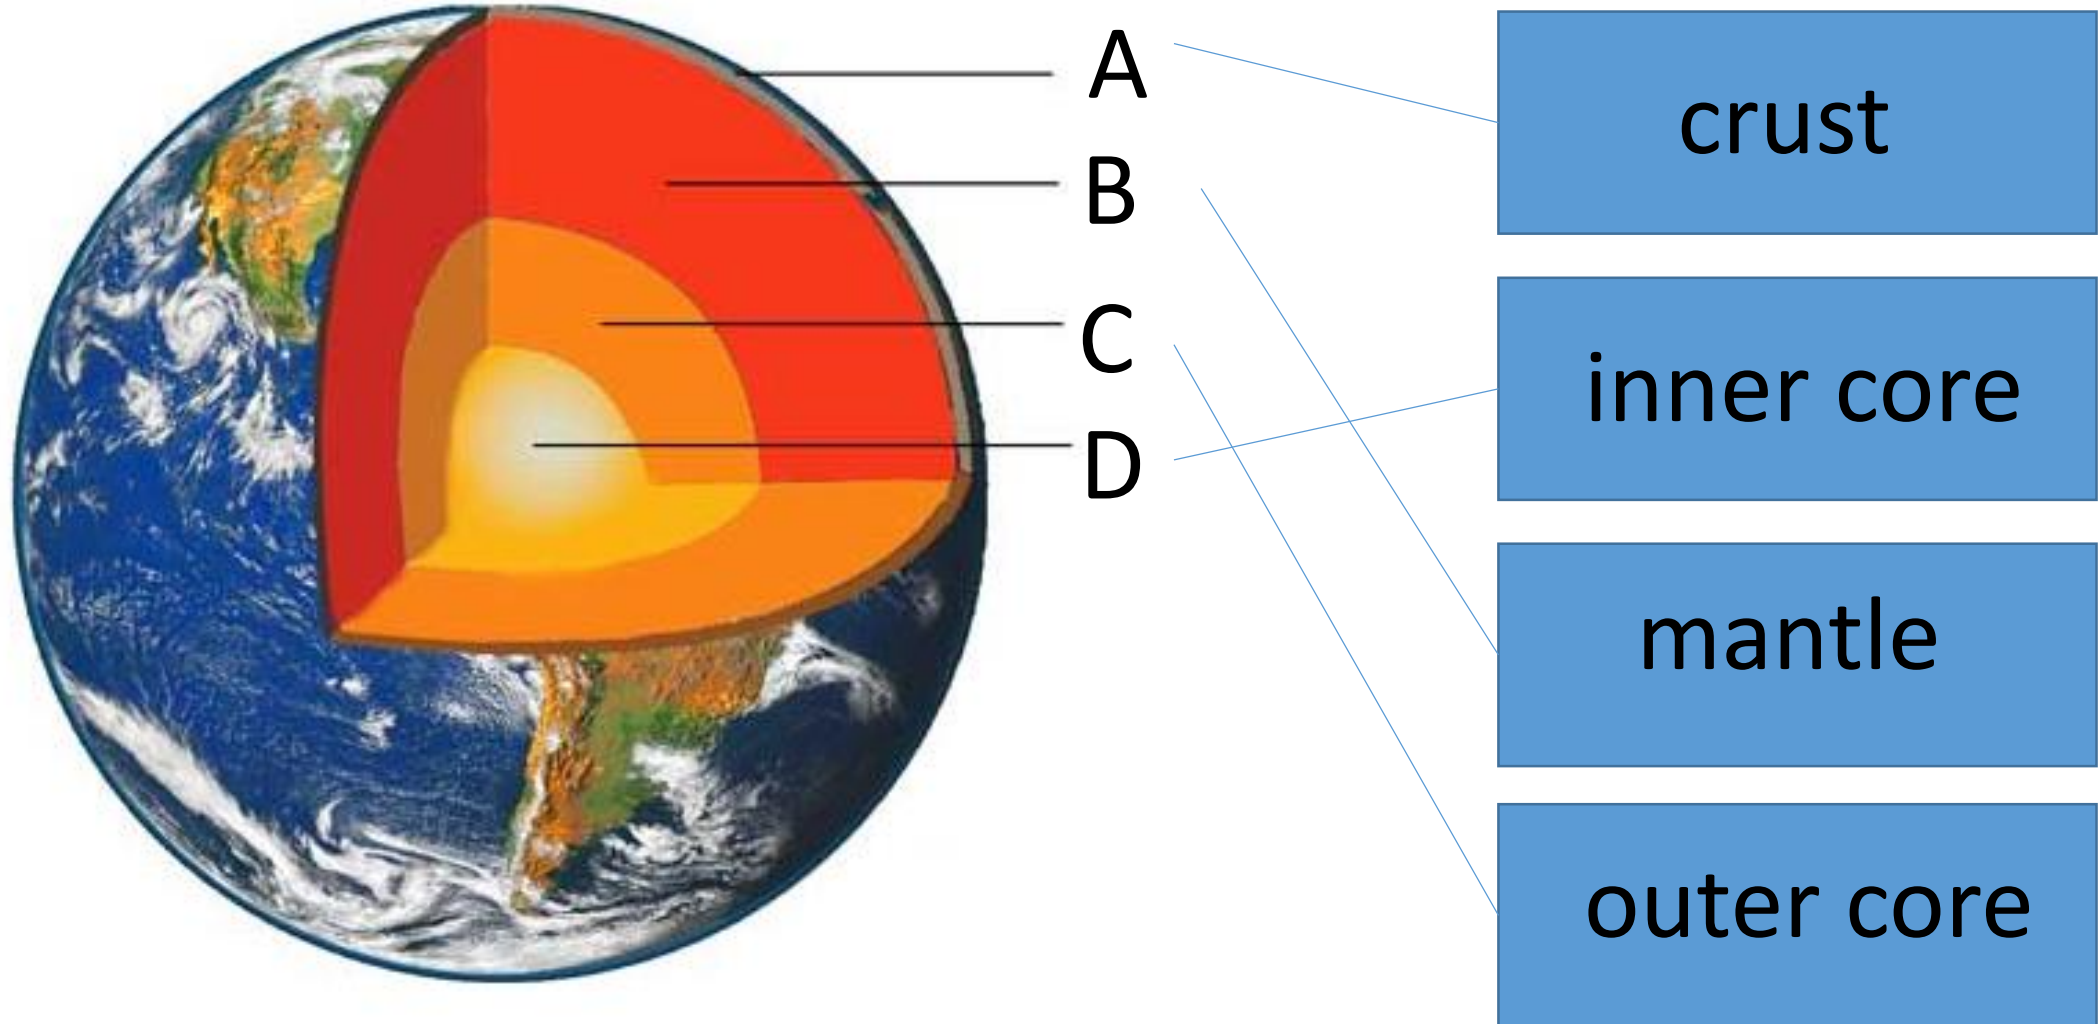

- A: It is juicy and delicious
- B: It looks like it is made of one thing but actually there are layers hidden under the surface
- C: It is a cylinder
- D: It is pink and orange

I doubt it!

Both the Earth and a peach are spheres, not cylinders.

The Earth looks blue, white and green from space.

Match the labels to the layers of the Earth

Now match the description to the layer

layer

description

crust

mantle

inner core

outer core

The inside of the Earth, made of bubbling hot liquid called magma

The innermost part of the Earth, right in the centre

The top layer of the Earth (like the peach's skin)

About 4000km inside the Earth, surrounding the inner core

The Earth's crust is made of huge pieces that fit together like a jigsaw. They are called...

- A: spoons

- B: bowls

- C: plates

- D: dishes

# Match the statements on the left to the statements on the right

If two plates collide with each other...

... a ridge is formed.

If two plates move away from each other...

... mountains and volcanoes are formed.

If two plates rub against each other...

... an earthquake can occur.

Which of these is the best definition of 'trade'?

- A: The way that different countries solve problems
- B: The way that different countries speak different languages
- C: The way that people from different countries travel around the world
- D: The way that different countries buy from and sell to each other

Which of the following things do countries trade with each other?

- A: food (like fruit, vegetables and meat)
- B: building materials (like bricks, steel and wood)
- C: electronic goods (like computers, TVs and phones)
- D: toys

This was a trick question. The answer is all of them!

- **Imports** are goods and services brought in from another country.
- **Exports** are goods and services sent out to other countries.

- For your final task today, tell someone at home some different ways that the world is connected. Maybe you could film yourself and upload it to Dojo.
- See how many of these words you can include in your explanation:

Earth

layers

crust

plates

mantle

core

trade

imports

exports
